Re: Oxymorons Band

To Whom This May Concern:

This Summer I had the pleasure of booking our dream party on the beach of Lake Michigan in Pentwater, Michigan. We were celebrating our milestone wedding anniversary as well as a family reunion with our family who traveled from throughout the U.S.

Planning and booking this Sunset bash was almost seamless because the band was easy to work with despite details of setting up a 4 piece band on sand. We extended the invitation to all the members in our association who showed up in force and expressed a great desire to create an annual event.

The Oxymorons have a terrific playlist from the 60's to more current music. Our guests ranged in age from one to 99 and everyone joined in the singing. The band has great chemistry with each other and they all play a variety of instruments. We enjoy them so much we have become "groupies" every week at local venues. You will love them.
